

Kenny Lau
Chinese Baptist Church of Flushing

My experience with NYSTM's annual evangelism event "Jesus Loves Chinatown" (JLC) has been very rewarding. It is an event that gathers churches from all over Chinatown every day for a few days to train and evangelize as one body of Christ. In the morning session of each day, we would have a time for devotion and training from experienced preachers and evangelists on how to spread the Gospel. In the afternoon, we would go together as a group to parts of Manhattan to apply what we learned and tell the world about Jesus. Through attending JLC, I was able to learn how to easily approach anybody with the Gospel. It transformed my confined ways of thinking that spreading the Gospel

is only for pastors and preachers. What's more is that after JLC, we bring the same desire for the Great Commission to our

home churches. And this helped our church to see the need to go out regularly to spread the Gospel in our neighborhood. So I would strongly recommend any brothers and sisters that wish to learn and tell others the Gospel to join us for this year's JLC.
